\$3.50 Nemo Corsets To Be Advanced To \$4.00

Wholesale costs of nearly all materials of which corsets are made are high and still soaring. On some costs have more than doubled and some are hard to get at any price. The Nemo manufacturers were forced to choose between cutting down their quality or increase their price. To reduce the high Nemo standard to which millions of women have become accustomed to would not do. The makers, therefore announce a raise of 50c on several of their \$3.50 models, which will be sold

On and after July 2d at \$4.00

This advance represents only a small part of the actual increase in cost production. Meantime, up to and including Saturday, June 30 we will offer these coreets at the old price of \$3.50
